

ROTARY BRUSH CUTTERS

BEST VALUE LAND-CLEARING ATTACHMENT FOR YOUR MONEY

The Mongo Attachments Rotary Brush Cutters are perfect for clearing land, debris, brush, grass, and more. The attachments are designed for quick recovery and allow users to cut material in areas with small footprints and tight turn radiuses. The brush cutters come equipped with a bolt-on top deck and one removable, reversible cover.

- Heavy-duty 2 blade carrier for optimal performance
- No case drain required
- Additional removable side covers are sold separately
- Machine-specific coupler and hoses included
