# PRO-TURN MACH ONE

## WHERE OVERGROWN GRASS BECOMES JUST GRASS.

Whether it's thick wet conditions, overgrown properties, or stalky grasses in its path, the Mach One easily cuts it down to size. Its High-Volume Output deck with tunnel chamber directs clippings away from the blades after they're cut to keep them from bogging down.

WARRANTY

## 60"

**MODEL - 992297**
31 HP / 999 CC Kawasaki® FX921V Engine

**HIGH-VOLUME OUTPUT (HVO) DECK** The HVO deck provides increased depth from trim side to discharge side so it can process greater material volume.

**TUNNEL CHAMBER** An advanced cutting chamber is formed by setting the blades back four inches from the front of the deck for less clumping and even grass dispersion.
**CBT SYSTEM** Our exclusive Constant Belt Tension System (CBT) ensures belt tension is maintained, keeping the blade tip speed and cutting results consistent.
