▶ KEY FEATURES

The new Bobcat® PA375v portable air compressor features the FlexAir system, with variable air pressure and flow options that automatically adjusts based on the actual workload.

- The PA375v provides a versatile airflow ranging from 350 to 375 cfm at pressures between 150 and 80 psi, making it ideal for many common rental applications.
- Engineered with larger access doors, dual spin-on separator elements and extended service intervals, making routine service more convenient than ever.
- Featuring a 4.3" display with vibrant colors and easy to read graphics for a user-friendly operating experience.
- Powered by a Bobcat engine, the PA375v is designed for years of reliable performance and durability.
